Special Symposium 02

Spinal Deformity Primer for All Neurosurgeons: A CNS Collaboration with the Scoliosis Research Society

Saturday, September 28, 2024 | 8:00 am–4:15 pm

Course Directors: Jeffrey Mullin, Joseph Osorio

- Interact with leaders in spinal deformity from the Scoliosis Research Society and CNS in didactic and small group sessions
- Participants will: Gain an understanding of spinal deformity treatment and operative techniques, and be able to apply these to their practice
- Review surgical indications and management of patients with a spinal deformity
- Discuss current treatment options for correcting scoliosis, sagittal plane malformation and other spinal deformities
